PROFESSIONAL PROFILE

Driven Computer Science Engineering student with an excellent academic foundation and a dedicated focus on software engineering and modern web development architectures. Proficient in Java, Python, and front-end technologies, with hands-on internship experience delivering practical development solutions. Eager to apply technical competencies, problem-solving capabilities, and a rapid learning capacity within a collaborative engineering environment to build robust, innovative software solutions.

EDUCATION

V.S.B College of Engineering Technical Campus

B.E. in Computer Science Engineering

2024 — 2028

Current CGPA: 8.28 / 10 (upto 4th sem)

GRD-CPF Matric Higher Secondary School

Higher Secondary Education (XII)

Graduated: 2024

Score: 86%

PROFESSIONAL EXPERIENCE

Java Developer Intern | Codec IT Solutions

January 2025

- Gained practical industry exposure focusing on Java-based software architecture and object-oriented design patterns.
- Collaborated on building component logic, reviewing code blocks, and debugging modules to increase software reliable delivery metrics.

KEY PROJECTS

Medi-Verse — AI-Powered Healthcare Navigation Platform

Hackathon Project

- Developed an AI-powered healthcare platform recommending suitable hospitals and doctors based on user symptoms, specialty, distance, availability, queue length, and ratings.
- Implemented an interactive map for discovering nearby hospitals with verified doctor profiles and specialty-based filtering.
- Built an appointment booking system with real-time queue position and estimated waiting time tracking.
- Integrated an AI-powered symptom analysis module to guide users toward appropriate medical specialties with transparent reasoning.
- Impact:** Improved healthcare accessibility through intelligent recommendations and reduced wait times.

Personalized Metaverse for Rural Students

Academic Initiative

- Designed and mapped a concept for an immersive learning platform targeted directly at empowering rural demographics to visually interact with high-quality educational equipment, simulations, and virtualized academic resources.

TECHNICAL EXPERTISE

Languages: Java, Python, C, HTML, CSS, JavaScript

Tools & Frameworks: GitHub, Git, VS Code, Flutter, React, Node.js, FastAPI

Core Domains: Software Development, Web Applications, AI Applications

CERTIFICATIONS & STRENGTHS

Certifications: Java (NPTEL), Python (IPCS Global), AWS Cloud (Forage)

Strengths: Adaptive Learning, Team Collaboration, Problem Solving

Interests: Emerging Tech Trends, Football, Acoustics & Music

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
